## Professional Experience

### Software Developer Intern, Redipay

January 2023 – present

Developed and implemented a robust backend API using Flask, ensuring seamless integration with the database and delivering efficient data retrieval and manipulation functionalities.

Designed and built vendor and customer mobile applications using Flutter, leveraging its cross-platform capabilities to ensure compatibility and a consistent user experience in both Android and IOS.

Leveraged Firebase Functions to enhance the functionality of the Flutter apps by writing custom JavaScript code. Firebase Functions were utilized to enable notification support through Firebase Cloud Messaging.

## Projects

### MusicPlayer (LYRIKS) ✍

- Developed a music player application using React and Tailwind CSS, utilizing their respective strengths for efficient front-end development and responsive design implementation.
- Implemented Redux for state management, ensuring a centralized and predictable flow of data throughout the application.
- Utilized the Shazam API to fetch data, allowing the music player to retrieve song information, such as track name, artist, and album details.

### InternFreak Telegram Bot ✍

- Developed a Telegram bot with the purpose of delivering Internfreak posts directly to users' Telegram channels or private messages, providing convenient access to relevant content.
- Designed the bot to be easily deployable to any platform using Docker, streamlining the deployment process and ensuring compatibility across various environments.
- Leveraged Telegram's API and libraries to establish secure and reliable communication between the bot and Telegram users, maintaining the confidentiality of user data.

## Education

### Bachelor of Technology, Computer Science Engineering,

August 2019 – May 2023

Indian Institute of Information Technology Sonapat

Sonapat, India

CGPA: 8

**Technical Courses:** Data Structures and Algorithms, Operating Systems, Database Management Systems, Object Oriented Programming, Computer Networks, Design and Analysis of Algorithms

**AISSE XII,** Carman School

March 2018 | Dehradun, India

**Overall Percentage:** 93%

## Skills

Python • JavaScript • MongoDB • Express.js • React.js • Node.js • JQuery • Google Cloud  
Docker • Selenium • Pyrogram • Flutter
